Wednesday Half Holidays

Commence on May 7th.

Crossfield Merchant Sign Agreement to
Close on Wednesday Afternoon

Last week the Crossfield merchants signed an agreement to close their places of business on Wednesday afternoon from May 1st to September 1st. It is the purpose of those signing, to petition the Council to pass a bylaw making this a permanent one.

The following are those signing the agreement:

Halliday & Co., M. Thomas, W. Pogne, Bert Mobbs, Robt. Ure, N. A. Johnson, J. L. McRory, Atlas Lumber Co. Ltd., J. M. Williams, H. H. Gordon, W. H. Miller, W. Laut, F. Mossop, Tredaway & Springsteen, H. A. Bannister, W. K. Gibson, Crossfield District Co-Operative Association U. F. A. Ltd.

School Spelling Competition

Won by Pupils of Rodney School

The spelling contest between six of the Eastern Rural Schools was held at the East Community Hall on Thursday last. It was won by the pupils of Rodney, but it is only fair to state that three of the winners had quite recently removed there from the Floral School and it was owing to this that the latter school were not the winners.

Mrs. Ian Laut asked the words and performed her task very graciously, she was assisted by Messdames Ableman and McCordell.

RESULTS:

Grade VIII. 1, Earl Richardson (Rodney); 2nd, W. Richards (Tan-y-Bryn.)

Grade VII. 1, Lydia Kimmel (Rodney); 2, Janet McGrimmon (Tan-y-Bryn.)

Grade VI. 1, Sylvia Richardson (Rodney); 2, Mervin Stafford (Floral.)

V. 1, W. Aldhausen (Rodney); 2, David Wylie (Tan-y-Bryn.)

IV. 1, Lena Newfeldt (Rodney); 2, Eileen Montgomery (Rodney.)

Grade III. 1, Ruth Richardson (Rodney); 2, Dolly Elhardt (Floral.)

The annual athletic sports competition between these schools will take place early in June.

Local and General

Mrs. W. D. McCool spent the first of the week visiting relatives in Calgary.

Mrs. A. Banta left on Tuesday for Washington, where she was called owing to the death of her sister.

Pupils of Mary I. Abell, assisted by local talent, will give a recital, in U. F. A. Hall on Wednesday, April 9th at 8.30 p.m.

Mr. Walter and Wm. Morris, who have been spending the winter at the Coast, were visitors at the home of Mr. and Mrs. J. M. Williams on Tuesday, enroute to their home in Laura, Sask.

The Lord Bishop of Calgary will administer the Sacrament of Confirmation in the Church of the Ascension on Thursday evening 10th April at 8 p.m.

Miss C. Robertson who was called to Edmonton on Wednesday of last week, returned home on Sunday and reports her sister is progressing favorably after her recent operation for appendicitis.

A meeting of the directors of the Agricultural Society will be held in the fire hall on Saturday afternoon, April 6th, at 3 o'clock. This meeting was to have been held last Saturday, but was postponed owing to the storm.

Rev. Herbert Clay, Rural Dean of Red Deer was visiting friends in town on Wednesday. Mr. Clay is leaving at the end of the month for Lincolnshire, England. When he returns in the fall he is to take up a Mission in the southern part of the Calgary Diocese.

CLEAN UP TIME IS AT HAND

The first week in April is generally considered the approach of spring and with it comes clean-up week. Ash piles and tin cans which are allowed to accumulate throughout the winter months and are seen in all kinds of places where they are an eyesore to everyone who takes a pride in the welfare of the town he lives in, should be cleaned up.

A little fresh paint on some of the buildings on our Main Street would also look very refreshing and add to the appearance of our town. Some of the buildings on the north end of the street, including the Chronicle building are badly in need of paint, in fact giving the appearance of a deserted mining town.

Adam Cruickshank has made a good start by having the Oliver Hotel painted. Let us hope this will prove catching.

Adam claims that it does not pay to be poor and look poor at same time.

Board of Trade To Erect Large Sign Near Highway

The committee of the Board of Trade who have the looking after the making of a large sign to be erected near the highway on the approach into town, have drafted a very attractive and somewhat out of the ordinary sign, which should at a glance bring before the motorist the name Crossfield and the outstanding qualities of Crossfield and district.

The contract for making and erecting this sign has been awarded to Lloyd McRory, who expects to have it completed within the next two weeks.

Shower for Bride-Elect

On Tuesday evening about 25 ladies of the town paid a surprise visit to the farm home of Mr. and Mrs. A. Duthie. Miss Alice Duthie will soon be leaving the benedict class hence the reason for the party and a lovely shower of things needful for the young couple's home. Alice is a great favorite with everyone.

C. G. I. T. News

On Friday, March 28, the Senior C.G.I.T. entertained the Junior group and the Airdrie C.G.I.T. at a party held in the Masonic Hall. Games were played and then a talk on Missionary Work in Africa was given by Mrs. Laut. Other items on the program were: A piano solo by Marjorie Methers; two short dialogues by Mable Young, Eva Jarman, Frances Mobbs and Marjorie Young, and a recitation by Frances Mobbs.

After this a dainty lunch was served by the senior girls and the meeting closed.

The regular monthly meeting of the Crossfield Senior C.G.I.T. was held at the home of Mrs. Waldoek. After the business period was finished a marshmallow toast was held which was enjoyed by everyone.

O. E. Jones must be the premier this year as regards seeding. He seeded 50 acres of wheat last week. It is expected that seeding will be general throughout the district about the first of the week. There is ample moisture and indications are for a good crop.

The regular monthly meeting of the Floral U.F.W.A. Local will be held on the second Wednesday of the month, (as usual) April 9th, at the home of Mrs. Ian Laut at 2.30. Visitors always welcome. We were pleased to enroll three new members at our last meeting and hope to do the same this month.

Keep in mind the talkie motion pictures in the U. F. A. hall on Monday, April 14th at 8.15 p. m.

Below we give you a few of our

Delicious Salada quality is an inexpensive luxury

"GOLDEN RULE" SALADA TEA

'Fresh from the gardens'

There's "Gold" In The Golden Rule

A heading in a business magazine reads: "There's Gold In The Golden Rule," and the accompanying article proves it. There is no doubt that following the Golden Rule, in business as well as out of it, in the long run will be more profitable than otherwise, and by this we mean materially profitable. There is a principle recognized by modern business that the business man, to be permanently successful, must contribute to the profit and welfare of those who deal with him, those from whom he buys as well as those to whom he sells. And in a measure, this is recognition of the Golden Rule.

But here comes the rub. Is the Golden Rule observed, even to such a limited extent, for itself or for the "gold" which may be mined from it. Is it observed because it is the right thing to do or because it is the more expedient, the more profitable thing? Are we to "do unto others" from pure delight in the doing, or because we wish to have them do the same to us? The real beauty, and force, and advantage of the Golden Rule lie in our attitude toward it. Its efficacy is in itself and in what prompts us to practice it.

Just to follow the Golden Rule because there is "gold in it" would be much the same as being honest because it is the "best policy." Neither impulse would rate high among the things considered admirable. To follow the Golden Rule because it charts the inherently right course in our dealings with our fellows and because we wish to be and to do right, is in the highest degree commendable. But to follow it merely or chiefly because "there's gold in it" is—well, not something we would care to boast about. The greatest credit which comes from living the Golden Rule cannot be set down in dollars and cents.

Throughout Western Canada, our people have very largely accepted and adopted the principle of co-operation in connection with their economic relations and business. Unfortunately, it is not quite so generally accepted and acted upon in other community relationships. The question, therefore, naturally arises: Has this acceptance of one of the principles found in the Golden Rule resulted from a belief that "there's gold in it" rather than from a conviction that co-operation is indeed the better way for all concerned? Have we established, and are we maintaining, our great co-operative enterprises solely on a dollar and cents basis, or are a majority of our people earnestly striving to, in this way, make some contribution to the welfare of others?

Many fine and lofty sentiments—the sentiments of the Golden Rule—have been uttered by advocates of co-operation, and we are convinced that scores of men and women have joined co-operative organizations, not because they felt that they themselves would reap any particular benefits, but because they felt such organizations would be the means of benefiting others and the country as a whole. They are practicing the Golden Rule because they believe it to be right, not because there may be some "gold" in it for them.

And if co-operation is to live and continue as a vital force in the life and activities of this country, if it is to grow and develop as a great compelling influence and force, not only in an economic sense but in all our community life, it must be through a general acceptance of the view, and its practice in everyday life, that selfishness is wrong and unselfishness is right; that the welfare and happiness of others is our concern as well as ours; that the Golden Rule is to be practised not because there is "gold" in it for us, but because it is the only correct rule by which to measure our lives and acts; that we must be honest with each other, not because it is "the best policy" but because it is right. If we expect others to accord honesty to us in our convictions, we must likewise recognize and believe in the honesty of convictions entertained by others.

True co-operation is founded on the Golden Rule. It is its underlying principle. It is the only foundation upon which our great co-operative organizations can safely build, not because there is "gold" in it for anybody, but because it is the only safe rule for human conduct and intercourse.

Wheat Sales Affected

Eating Habits Of Those Who Desire Slenderness, Is Held Responsible

The modern feminine desires for slenderness, according to Professor James L. Boyle, of Cornell University, has altered market standards of long standing, cut the consumption of bread by 20 per cent. and considerably affected the wheat sales of the world.

Doctors, nurses, schools and even beauty parlors have helped to bring about these changes, the professor said in an address recently. Meat consumption also has declined, both in search of necessary vitamins preferring oranges, grapefruit, pineapples, lettuce, tomatoes and cantaloupes.

"All these changes in customers' food habits can be considered as market developments," Professor Boyle said. "The consumer is the most important of the people concerned with marketing."

To Study British Methods

Chinese Officers Will Learn How "Big Time" Navy Is Run
Twenty Chinese naval officers and cadets have gone to Great Britain to study British methods of running a "big time" navy.

The officers in the party expect to enter Greenwich Naval Academy and take the same course in tactics as British students. The cadets, however, must first spend some time on various naval vessels to learn the rudiments of British naval practice.

Makes Breathing Easy. The constriction of the air passages and the struggle for breath, too familiar evidence of asthmatic trouble, cannot be cured by Dr. J. D. Kellogg's Asthma Remedy. This is the famous remedy which is known far and wide for its complete effectiveness even under very severe conditions. It is no untried, experimental preparation, but one with many years of strong service behind it. Buy it from your nearest dealer.

Interesting Records

Among the most valuable records preserved in the Public Record Office of England, are the pipe rolls, a statement of the King's income and expenditures, so called because they were rolled in the shape of pipes. They date back to 1181 and were not discontinued until 1833.

Apple Trees For Prairie Farms

Sixteen Varieties Of Apples Found Suitable For The West

After fifteen years of seed planting the experimental work of the Dominion Department of Agriculture has developed sixteen varieties of apple trees suited to the climatic conditions of the Prairie Provinces. Of these varieties two have been graded "very good" and four "good." Horticultural experts point out, however, that it will take several more tree generations to evolve the ideal species. Prairie farmers can help in this work by getting seed from the Experimental Station, Morden, Man., for planting in their own gardens.

DO YOU FEAR A HEARTY MEAL?

Dr. Williams' Pink Pills Will Tone Up Your Stomach Making Mealtime a Pleasure

Are you afraid of meal-time? Does eating distress you? Would you rather go without food? That is the condition of many due entirely to indigestion. There can be no perfect digestion—hence no enjoyment of meal-time—unless you have rich, strong blood. This poor blood is necessary to tone up your stomach and make it capable of properly digesting the food.

Many so-called stomach remedies merely try to digest your food for you, but they do not give you the power to do that work and if nature is not doing it, serious results are bound to follow. Tonic up your stomach by following the directions in the booklet. Make new rich blood and your appetite and digestion will soon be normal—means will once more be a pleasure.

The one sure medicine to enrich the blood, restore strength and banish stomach trouble and indigestion is Dr. Williams' Pink Pills. Concerning them Mrs. Wm. T. Thompson, Brussels, Ont., says: "For years I suffered with indigestion, headache and dizzy spells. I tried great many so-called remedies without relief. As a result, my wife, who is a little girl, was almost impossible to be idle and I just dragged myself through my work. I suffered so I was actually afraid of meal-time."

A friend advised the use of Dr. Williams' Pink Pills, and although I had lost faith in ever being well again, I purchased a supply and began taking them. Gradually the dizziness and headaches left me. My appetite improved and soon I was able to enjoy my meals. I gained in weight and my health in general is better than it has been for years. I feel I owe much to Dr. Williams' Pink Pills for they relieved me of all my misery."

You can get these pills from any medicine-dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

New Species Of Whitefish

Newly Discovered Member Of Fluffy Tribe Found In Manitoba

Discovery of a new species of whitefish in Clear Lake, Manitoba, is announced by A. Rajkov, of Manitoba University. The new species has been named Coregonus Odontogobius, in honor of Dr. C. H. O'Donoghue, formerly of the faculty of Manitoba University. The newly-discovered fish is common in Clear Lake. It lives at a great depth during the summer, coming to the surface only in the spawning season.

The worms that infest children from their birth are of two kinds, those that find lodgement in the stomach and those that are found in the intestines. The latter are the most destructive, as they cling to the walls of the intestines and if not interfered with work havoc there. Miller's Worm Powders dislodge both kinds and while expelling them from the system serve to repair the damage they have caused.

Covered Long Distance

Walter E. Davidson, carrier on a rural route from the post office at Westville, Indiana, for 25 years, retired recently on a pension. During his service, Davidson wore out seven autos, nine horses, two wagons, and two sleighs, and travelled approximately 223,000 miles, a distance only 1,776 miles short of nine trips around the world.

A Matter Of Opinion

It is announced that Ontario and Quebec are to have "new penitentiaries which will be models for the world." This brings to mind the penitentiary some years ago of a Brantford, Ontario, grand jury, in which it was stated that conditions at the local jail were such as to make it "one of the most desirable places of residence in the city."

SORE CORNS
Removed by
PUTNAM'S
Corn Extractor

Children's Colds

Best Treated Externally

That's why modern mothers prefer Vicks—It cannot upset delicate stomachs. Rubbed on throat and chest, it acts two ways at once:

(1) Its healing vapors, released by the body heat, are inhaled direct to the air passages;
(2) It "draws out" the soreness like an old-fashioned poultice.

VICKS VAPORUB
Imperial Agricultural Conference Arranged

First Meeting To Be Held In South Africa In 1932

Another link is being forged in the chain of Empire unity. To the present Imperial gatherings will be added an Imperial agricultural conference, and the first meeting will take place in the Union of South Africa in 1932. The conference will meet every second year.

A tour of New Zealand by farmers from Britain, Canada and South Africa provided the opportunity for deciding on an Imperial conference. Lord Bledisloe, who has been Britain's leading farmer, and who has come to New Zealand to assume the governor-generalship, addressed a conference of the visiting farmers and representatives of farmers in this great agricultural dominion recently.

Lord Bledisloe called the present meeting a landmark in the history of the empire. He stressed the vital importance of uniformity in the production and sale of agricultural products if a settled, continuous market for these products was to be secured.

The British Empire Producers' Marketing Board and similar organizations will be asked to circulate propaganda on behalf of empire agricultural products; empire preferences will be further discussed; and information will be gathered so the next conference can study financial and marketing organizations for farmers, as well as the extension of foreign markets.

Perisai Balm is inevitably chosen by suffering women. Delightful to use. Subtly fragrant. Cooling and refreshing. Imparts a rare youthful charm to the complexion. Invaluable for softening and making hands flawlessly white. Tones and stimulates the skin. Useful for the family also. Protects the tender skin of the child and is excellent for the father as a hair fixative and cooling shaving lotion.

Mark Twain's Immortal Boys

Last Survivor Of Famous Quartette Died In Seattle Recently

"Huck" Finn, Tom Sawyer, Mark Twain and Erasmus Finn—kids who used to play together in Hannibal, Mo., years back—are all gone now. The last to go was Erasmus Finn, who was not as well known as the others, made so famous by Mark Twain. Ninety-five years old and a veteran of the civil war, Erasmus Finn died in Seattle, a victim of pneumonia.

In recent years the old man loved to recall memories of his boyhood days when he and his brother "Huckleberry" and Samuel Clemens were friends of Tom Sawyer.

"Huck" Finn died a few years ago in Eugene, Ore. They're all gone now, are Mark Twain's immortal boys.

Powerful Medicine.—The healing properties in six essential oils are concentrated in every bottle of Dr. Thomas' Electric Oil, forming one of the most beneficial liniments ever offered to the use of man. Many can testify to its power in alleviating pain, and many more can certify that they owe their health to it. Its wonderful power is not expressed by the small price at which it sells.

"Times will not be much better so long as the new model of an automobile creates keener interest and invites closer inspection than a grand champion animal at an international exhibition."

Jed—"How did you find your wife when you got home last night?"

To—"Just as nice as pie."

Jed—"How's hawk?"

To—"Short and crispy."

Minard's Will Stop That Toothache.

Town Planning Advantage Shown

An Attractive Community Depends Greatly Upon The Appearance Of Its Streets

The following advantages that accrue from a systematic plan of town planning are given by Mr. Stewart Young, of the Town Planning Department of the Saskatchewan Government:

The general appearance of any community is most important, and it ways and means by which more agreeable surroundings can be produced are analyzed. It will be found that an attractive community depends greatly upon the appearance of its streets.

The appearance of a business street may be marred by the use of the sidewalks for storage or hoisting purposes. Curb gasoline pumps do not add to the appearance of any street and should be prohibited. Electric light and telephone wires, when placed on a street tend to give it a ragged appearance. They should be placed underground in conduits or on lines.

The appearance of the residential streets of any community reflects the mental attitude of the citizens. Every community should have a definite policy in respect of tree planting on residential streets. The boulevard system should be used.

Usually a sidewalk four and a half feet in width placed at a distance of about two feet from the street line with a graded roadway about twenty feet in width is sufficient to accommodate all traffic on residential streets. The intervening space between the sidewalk and the vehicle traffic way should be planted with trees spaced about twenty feet apart, and alternated slow and fast growing.

Several advantages are to be gained by this method of planting. Fast growing trees mature in a period of from twenty to twenty-five years, at about two feet from the street line where it reaches a stage where it becomes useful. Moreover, insects seldom attack more than one variety of tree in a season. The result is obvious where a street is planted entirely with one variety of trees.

Deliver Tea By Plane

Tea Freight, Begun On Oxen-Cart, Ends With Trip On Aeroplane

It is a far cry from the slow-moving, primitive, high-wheeled cart, hauled by oxen along the roads of Ceylon, to a speedy aeroplane in the winter sky over Lake Erie, but many of the people of Pelee Island are now drinking tea, carried there by air, that joggled along in an ox cart under a tropical sun in Ceylon only a few weeks ago.

The Salada Tea Company, because of the freeing over of Lake Erie, between Pelee and the mainland, recently shipped several hundred pounds of tea by air, in order to replenish the diminishing stock of a certain grocer on the island.

Test Is Satisfactory

The annual rest of the herds in the Fraser Valley, B.C., for T.B. is being carried on at present by about twenty veterinarians. More than half of all the dairy cows in the province (55,000) are located within this area and in the last test only three quarters of one per cent. re-tested.

New Municipal Bridge

The cities of Winnipeg and St. Boniface are conferring on the question of a new inter-municipal bridge to replace the present Norwood bridge.

Don't Let Foods Stale
Foods that ordinarily stale quickly will stay fresh and tempting a surprisingly long time if you cover them with Para-Sani Heavy Waxed Paper.
Your grocer, druggist or stationer has Para-Sani in the handy, handy, knife-edged carton. For those who prefer a lighter paper put up in sheet form ask for Appleford's "Centre Pull" Packs.

Something To Leave Alone

Guest Towels Seem To Serve No Useful Purpose

It has been said that "actresses may happen in the best of families." Another enigma is: "Why the guest towel?" Every family may not have an actress, but nearly every family has a set of guest towels. Why? Nobody uses them not even the guests.

We all know the heap of towels on the rack near the bathtub. There are the ones for the family and those for the guests. No matter how many there are, there are not, there must be guest towels.

The family dare not use them, and the guests, usually trained in the same manner in their own homes, also refrain for no other reason than "What is good enough for the host is good enough for me."

Rayon is not suitable material for paper-making, tests by government specialists indicate.

Make dresses bright as new!

DIAMOND DYES are easy to use; go on smoothly and evenly; NEW. Never a trace of that red-dyed look when Diamond Dyes are used. Just true, even, new colors that hold their own through the hardest wear and washing.
Diamond Dyes owe their superiority to the abundance of pure aniline they contain. Cost more to make. Surely, But you pay no more for them. All drug stores—15c.

Highest Quality for 50 Years

Geographical Features Named After Indian Chiefs Are Numerous From Coast To Coast

Geographical features named after Indian chiefs are numerous in Canada. It is exactly 100 years since the first appearance on a map of the name Petawawa. According to the records of the Geographic Board of Canada, Petawawa River occurs on a map made in 1829 by Colonel John By, who built the Rideau Canal.

The name is now applied to the military camp on the Petawawa River in Renfrew County, Ontario. The Indian chief, Petawawa, is said to have hunted in the region and the meaning of the name is "the sound is coming" or "approaching sound."

In some cases an Indian has been commemorated by a name given him by the whites. There are several examples of this nature in New Brunswick, where Barnaby River, Bartibog River, Cain River, and Felix River bear the names of Indian chiefs who once lived on these streams.

In Quebec the town of Donnacona recalls the "Lord of Canada," who was taken to France by Jacques Cartier, in 1534, and died there. In Manitoba, Peguis post office takes its name from a Saulteaux chief who, in 1835, was granted an annuity of \$25 by the Hudson's Bay Company. He was the namesake of the Red River Settlement (Winnipeg), and well disposed towards the whites.

In Saskatchewan, Outknife Hill, according to tradition, commemorates a Sarcee who was killed on it in battle with Crees. In Alberta, Crowfoot Village, Mekoato railway station, and Chinkiti Lake, are a tribute to the worth of Indian chiefs who on the coming of white men forced their title to vast acres and feroceous tribal warfare. Crowfoot, head chief of the Blackfeet, was a keen business man, not a warrior, who kept his tribe at peace with the whites. Mekoato, or Red Crow, head chief of the Southern Bloods, was loyal throughout the 1885 rebellion. Chinkiti was a Sarcee Indian chief.

Kanaskis pass, in the Rockies, commemorates an Indian who made a wonderful recovery from the blow of an axe. Pouce-Coupe River, in Alberta and British Columbia bears the name of a Beaver Indian chief who settled on the river with 500 followers.

The name is French for "cut thumb." In British Columbia, Kinsbasket Lake, an expansion of the Columbia River, was so named in 1866 by Walter Moberly, C.E., after a Shuswap Indian chief, who was of service to him on an exploratory trip. Nicola Lake commemorates an Indian chief whose other name, Nwistemeekina, meaning "walking grizzly bear," well describes his character.

To Grow Early Potatoes

B.C. Association Imports Certified Seed From Prince Edward Island For the purpose of supplying the prairie markets with early potatoes, some fifty farmers on Lulu Island, British Columbia, have formed the Richmond Early Potato Growers' Association. Each member will put in a special plot of two or three acres of early potatoes, which will be planted simultaneously at the end of the present month, so that they will be ready for market at the same time. Irish Cobbler has been selected as the variety to use and a car-load of certified seed has been imported from Prince Edward Island.

Pankhurst Statue Unveiled

A statue of Mrs. Emmeline Pankhurst, who led the movement for the enfranchisement of women in Great Britain, was unveiled in Victoria Tower Gardens, Westminster, in the presence of many of the leading fighters in the suffrage cause. Many political leaders were present and Stanley Baldwin, the former Premier, performed the unveiling ceremony.

"Sing us a song."
"I dare not with all these people."
"Pooh, they won't listen." — Mus-Beto, Vienna.

W. N. U. 1831

Here To Give Service

Paper As Community Affair Has Most Difficult Task

A newspaper is different from any other business. It is a community affair. It is for service to the people, and not for any individual. The job of a newspaper is first to provide news to those who subscribe to the paper. They pay in advance because they want news, and the newspaper's part of the contract is to provide the news. That is why newspapers find it hard to comply with requests by individuals to leave out items of news. If newspapers left out unpleasant news to individuals every time they were asked to do so, the day would eventually arrive when there would be no newspapers.

In the case of court cases the newspaper treats such as cases, not as individuals. There is no more animosity in a newspaper reporting public proceedings than there is in police or other public officials doing unpleasant things to individuals, such as taking them before the courts. It is part of the job in each case. In the instance of newspapers, as with police and other officials, care is always taken that the innocent shall not suffer.

Newspapers have to be trusted to do the right and fair thing as far as possible at all times consistent with adherence to the clear and straight path of duty. The task is always a difficult one, and the public should realize it.

(By Anabelle Worthington)

Lingerie detail presented in egg-shell crepe collar of a crepe silk in dark blue background printed in green, is decidedly chic to wear. The eggshell crepe appears again in neat turn-back cuff.

Style No. 3372 that can be had in sizes 36, 38, 40, 42, 44 and 46 inches bust, achieves a most unusual slenderizing effect through the moulded long-waisted bodice, and fitted circular skirt. A narrow belt indicates normal waistline, which is generally becoming to most figures.

Black silk crepe with asparagus, brown with turquoise blue, purple-blue chiffon, crepe marocain in putty beige and cañon crepe in terra-cotta are ideal selections.

Problems Poultry Men Have Not Solved

Why Eggs Should Differ According To When They Are Laid

Why should eggs laid in January, February, and March, make light cakes, and eggs laid in May, June and July make heavy, soggy cakes? Why should eggs laid in March give a low percentage of chickens as compared with eggs laid in January, February, April or May?

These were some of the unsolved problems mentioned by Professor R. K. Baker, head of the poultry department at the University of Saskatchewan and producers of the world's champion hen, in his discussion before the Saskatoon branch of the Canadian Society of Technical Agriculturists on "Some discoveries that have affected poultry breeding."

Discoveries regarding vitamins had made the 300-egg hen possible. Leg weakness, partial paralysis and crooked keel bones were becoming rare since vitamins had been studied and the birds were getting sprouted oats, cabbage, carrots and cod liver oil.

X-ray experiments on eggs were giving interesting results. A short exposure is said to improve the hatching percentage of the eggs. An exposure of 5 to 20 minutes is said to increase the rate at which chicks grow after hatching. An exposure of several hours is said to affect the sex ratio of chicks so that more of the chicks are females.

When the University of Saskatchewan flock was started in 1913 the laying average was less than 100 eggs per hen. By 1928 it was over 175 eggs. Last year's average has only been worked out for one family. The 44 daughters of one bird average 217 eggs. There was not a poor bird in the family. The 358-egg champion, came from another family.

Colour Indicates Real Grade

Maple Sugar Or Syrup Of Light Color Is The Best Grade

The maple sugar industry is one of the oldest known to this continent. It was brought to the early settlers by the native Indian and today is of outstanding commercial interest. The Dominion Department of Agriculture finds that quality in maple sugar and syrup is clearly indicated by color. The grading rule is the lighter the product the better its quality. Grade 1 is very light in colour, corresponding closely to clover honey in appearance. Grades 2 and 3 are perceptibly darker, while Grade 4 corresponds quite closely to the colour of buckwheat honey. Quality counts in maple products as in everything else.

Completing Dairy Survey

Dr. Milner, of Cornell University, N.Y., has returned to his work, after completing the field work of a survey of the dairy industry of Saskatchewan. J. K. Finlayson, of the Saskatchewan Markets Branch, has gone to Cornell with him, where he will complete the summarization of the facts and figures, which will occupy about two months.

Nearly 30,000 tons of beans were shipped daily during the recent bean harvesting season in southern China.

COLONEL W. G. BARKER, V.C., D.S.O., M.C.

The photograph here shows Col. W. G. Barker, V.C., D.S.O., M.C., with bar, who was instantly killed in Ottawa, when his aeroplane stalled at a low altitude and crashed to the ground. Col. Barker was one of the greatest of Canada's war aces, having 52 enemy aeroplanes to his credit.

Three Hundred Millions Spent. By American Tourists In Canada During Year 1929

Hard Legal Problem

English Magistrates Puzzled Over Definition Of "Farmer"

What is a farmer? Hundreds of people who gain their livelihood from their own land in the counties of England are affected by that legal question. Large sums of money, too, are involved, for dependent on the answer of the problem is the amount of rates which may, or may not, have to be paid by the men and women who consider themselves "farmers" in the legal sense.

Is, for example, a bee-keeper a farmer? One side of the difficulty has been settled by the Oxfordshire Quarter Sessions in considering a rating appeal. The magistrates at the Oxford County Hall decided that a bee-keeper was a farmer, and, as such was entitled to have his home rated as a "farmhouse."

Christopher Bartlett, of Sandford Mount, Charlbury, appealed to the quarter sessions against the assessment of his house, because he was a bee-keeper. His house had been assessed at £100, whereas he maintained that as a farmhouse the assessment should not be more than £40.

"He is the largest bee-farmer in England," said R. Horst, counsel for Mr. Bartlett. His home has been assessed as a country house, where, as it is used by a man who is working an agricultural holding and is therefore a farmhouse in fact."

Dr. Earengy, counsel for the rating authority, and one of the foremost barristers on the Oxford circuit, submitted that bee-keeping was not farming. R. T. Barrie, the rating officer for the Chipping Norton Council, gave evidence that, in his opinion, £100 was the fair and proper assessment for Sandford Mount. Eventually the magistrates upheld the appeal of Mr. Bartlett, and fixed the assessment of his home at £60—a reduction of £40 from the former rateable value.

Publicity For Grain Show

Exhibits Will Be Displayed At World Poultry Congress

World Grain Exhibition and Congress, to be held in Regina, in 1932, has obtained exhibiting space at the World Poultry Congress, to be held in London, this year, at Crystal Palace, London, England. Oscar Turcott, Canadian Exhibition manager, London, England, will arrange the display that will occupy a square with 576 square feet of space at the entrance to Crystal Palace.

The World Grain show will have the display of grains and other crops to be exhibited in Regina situated in the commercial section of the display at the World Poultry Congress, and announcements of the World Grain Show, such as are being distributed from Regina, will be distributed from the exhibit square to delegates from all parts of the world attending the congress.

Similar exhibitions of grain and associated crops will be made at Antwerp, Paris and Buenos Ayres under the personal direction of Mr. Turcott.

Plant Clean Seed

Need For Planting Clean Seed This Year Is Greater Than Ever Before

You may not always be able to afford finest quality registered seed for planting; but you can always afford clean seed for planting. The seed branch of the Dominion Department of Agriculture are urging the planting of clean seed this year more than ever before—clean seed pays, particularly with the weed menace reaching the alarming proportions it does in many parts of Canada today.

There are many effective ways of cleaning seed, depending upon the quantity to be cleaned, location and equipment. In many parts of Canada seed cleaning machinery is readily available for the purpose, while in others suitable screens can be adapted to the fanning mill, and in some of the more remote sections the old pioneer method of wind-cleaning is always available.

"To attain happiness," says a lecturer, "one must vibrate in tune with one's environment."

According to that, a man with St. Vitus Dance at a jazz concert would be in perfect bliss.

A first edition copy of Dickens' "Great Expectations," was sold recently in London, for \$1,275.

Gold from the south washes over the international boundary in great waves as soon as the tourist season begins. The year 1929, for which figures were just made public, was the best on record. Practically 300 millions were spent in Canada last year by tourists.

Canadian tourists in other countries, mainly the United States, were also generous with their cash, keeping in mind the Dominion's small population. One hundred and eleven millions were spent by Canadians in other countries, according to bureau of statistics' estimate.

The balance of tourist business in Canada's favor, amounting to some 189 millions, was twice as great as the adverse trade balance (visible balance) for 1929. The present difference of \$350,000,000 in favor of the United States is cut in half. Less than a decade ago (1920) the expenditures of tourists in Canada was calculated at \$85,000,000.

When tourists' expenditures are added to "visible" trade figures with the United States, expenditures here to exports, and Canadian expenditure there to imports, the present difference of \$350,000,000 in favor of the United States is cut in half.

Less than a decade ago (1920) the expenditures of tourists in Canada was calculated at \$85,000,000.

Oldest Trainman

Canada's Oldest Trainman Celebrates Birthday at Truro, N.S.

Claiming to be Canada's oldest trainman, Robert Williams, of Truro, N.S., rounded out the ninety-one mark on March 1st. He was born at West River, Antigonish County, Nova Scotia, March 1, 1839, and when seventeen years old got a job on the construction of the Nova Scotia Railway. Feeling the call of the sea, he joined a sailing vessel and rounded "The Horn." On a trip from Liverpool, England, with troops for a far-off station, his ship was wrecked while rounding "The Horn," and he was among the 49 saved. Once he fell forty feet from the rigging and broke an arm and also injured an eye. In the early twenties, he decided to give up the sea, and, in 1874, joined the service of the Intercolonial Railway, now part of the Canadian National Railways System, and retired on pension in 1910, at the age of seventy-one.

Russian Bees Stingless

Entomologists Have Proved This—After Three Years' Experiment

That everything from Russia is not dangerous was established with the announcement that Russian bees do not sting. This was the result of three years' experimenting at the agricultural station at New Brunswick.

The bees from Russia produce as much honey as Italian bees, but swarm less frequently, it was said. During the entire experimentation period neither Ray Hutton nor R. F. Diggers, entomologists at the station, ever were stung.

Earned His Publicity

Floyd Walte, of Los Angeles, claims the world record on what ever it might be called for staying buried six feet in the ground in a box with a six inch pipe and a telephone for outside connections for 391 hours, and no one has been found so far who does not agree that he is welcome to it. Floyd was buried Feb. 22 with nothing for company but a telephone.

"You will suffer poverty until you are sixty-five."
"And then—and then?"
"You will have got used to it."

"You said I was a rogue, a liar, a swindler—I have proofs of it."
"That you know what I said is true." — En. Fritz Haef Tamm, Göttingen.

RESEARCH WORK FOR THE BENEFIT OF AGRICULTURE

Regina.—Recommendation will be made by the Agricultural Committee of the Canadian Chamber of Commerce, following a session here, that research work in Canada be extended in all the provinces of Canada, and that further methods be adopted by the Canadian Chamber of Commerce to bring the results of such research to the knowledge of individual farmers as far as can be done.

A second resolution was passed that "the conference suggests to the Canadian Chamber of Commerce that a national bureau of agriculture be established in the Canadian Chamber of Commerce, which bureau would be completely directed by one or more recognized experts, whose duties it would be to survey the whole question of agricultural production, marketing, research, education, grading, standardization and so forth; and make available to the agriculturists and to business, findings and recommendations, which because of their authoritative, impartial and thorough nature will commend themselves as sound national procedure and inspire greater confidence on the part of our producers, middlemen and consumers."

In this connection the Regina conference will recommend to the Agricultural Committee of the Canadian Chamber of Commerce that a committee be set up to study agricultural problems in Canada, members of the body to be men familiar with the economics of agriculture.

"What's Ahead for Agriculture in Canada?" was the question upon which the National Agricultural Committee of the Canadian Chamber of Commerce based its discussion at the opening session of a meeting at the Saskatchewan Hotel. Col. Robert McEwen, London, Ont., presided.

Representatives attending the meeting were welcomed by Col. J. H. Woods, Calgary, president of the Canadian Chamber of Commerce, and by George H. Barr, K.C., Regina, Saskatchewan vice-president of the Canadian Chamber of Commerce.

Hon. J. D. MacGregor, lieutenant-governor of Manitoba, told the meeting that, in his opinion, the price of \$1.75 wheat had passed, and emphasized his opinion that the farmers of the prairies must enter diversified farming. The climate and the various soils of the prairies were admirable for the growing of forage crops and thus the possibilities for live stock were great.

"Pay your taxes with your stock and have the returns from your grain crop as well," he said.

Hon. Mr. MacGregor was winner of the grand championship at the Chicago International Exhibition for the years 1912 and 1913, and is known across the continent as one of the leading stock men of Canada and the United States.

George H. Barr, K.C., spoke of the opportunity for service provided through the medium of the Canadian Chamber of Commerce.

Amendment Is Lost

House Of Commons Defeat Amendment To Bill Providing For Divorce Courts

Ottawa, Ont.—The House of Commons defeated the amendment of Thomas McMillan, Liberal member for South Huron, to the Woodworth Bill providing for divorce courts in Ontario, by twenty votes. The vote stood: for 88, against 108.

The amendment expressed regret at the spread of divorce in Canada, and advised a campaign to foster the idea of the sanctity of the home in the Dominion.

After the vote on the amendment, there were calls for a vote on the main motion. Mr. Speaker Lemieux ruled that as the private members' hour had expired, it would not be possible to take this vote if any one objected. George Spotton, Conservative, North Huron, objected, so the vote was put over until another sitting.

Bandit Gets Heavy Sentence

Hamilton, Ont.—Fred Brooks, bandit, said to be from Saskatchewan, who tried to hold up Bert Irving in his drug store recently, but was overpowered, was sentenced to seven years by Magistrate Burdidge. He is also to receive 30 lashes in three instalments. He pleaded guilty to armed assault.

W. N. U. 1831

Millions For Good Roads

Saskatchewan Government Has Ambitious Program For This Season

Regina, Sask.—Nearly seven millions will be spent on Saskatchewan roads this season, it was announced in the legislature by Hon. A. C. Stewart, K.C., Minister of Highways, during the course of the debate on the budget.

The total of \$6,852,386 is to be divided as follows: On trunk highways, \$2,963,585; gravel surfacing, \$3,375,801; masonry grading, \$395,000; colonization roads, \$120,000. The latter refers to roads in newer districts of the province, part of the scheme of the new Anderson government.

Mr. Stewart assured the members that there was no intention on the part of the government to create a highways commission or of abandoning the present department of highways. Roads of the province, their construction and maintenance, would remain as they had always done, under the direct control of the minister.

British Coal For Canada

Tonnage Chartered For Trade Says British Minister Of Employment

London, Eng.—Very considerable orders for British anthracite and soft coal have been obtained in Canada, said Mr. Hon. J. H. Thomas, lord privy seal and minister of employment, in the House of Commons. The minister was questioned by Sir Kingsley Wood, Conservative member for West Wootich, who asked if anything had been done to secure westbound cargoes for the grain boats coming from the Dominion. Sir Kingsley suggested coal as the most natural article of cargo exchange.

"Yes sir," replied Mr. Thomas quickly, "my information is that very considerable orders for British anthracite and soft coal have been obtained in Canada, and I am able to announce that a substantial volume of tonnage has been chartered for this trade to commence with the opening of the St. Lawrence to navigation."

Tenth Anniversary Of Suffrage Celebrated

Luncheon Party In Forty-Two States Joiner By Radio

Washington, D.C.—The National League of Women Voters on March 26, celebrated ten years of women's suffrage with a chain of luncheon parties stretching across the United States.

The birthday parties were arranged in 42 states. The luncheon tables were joined by a nation-wide radio hook-up, with Carrie Chapman Catt, silver-haired, 70 years old, the grand old lady of women's suffrage, addressing the thousands of celebrants.

The birthday celebration was the first of a series planned for the next few months in recognition of the first decade of women's voice in government. A convention will be held in Louisville, April 18.

Will Not Resign

Hon. Dr. Godfrey Will Stand Pat Over Famous Postscript Episode

Toronto.—Hon. Dr. Forbes Godfrey, Minister of Health for Ontario, has reiterated his stand that he will not resign because of the public rebuke administered to him in the legislature by Premier G. H. Ferguson, over the now famous "postscript episode." He also denied a rumor that he will take a long vacation. "Both are a pile of dreams," he declared.

It was for his action in adding a postscript to a letter written to a constituent of his in which an application for a mother's allowance, made by a woman residing in Long Branch, was refused.

The postscript reads as follows: "See her if you can and get her support the 30th (election day), and we will be able to take more time with the case."

Purchase Earnschiffe

British Government To Spend \$125,000 For High Commissioner's Residence In Canada

London, Eng.—The governmental estimates for the coming year, tabled in the House of Commons, provide the sum of \$125,000 for the purchase and adaptation of the British high commissioner's residence in Ottawa, "Earnschiffe."

Buildings in use by the diplomatic service will prove rather costly this year. The new Washington embassy will account for the expenditure of \$170,000. The Tokyo embassy, destroyed by fire, will be rebuilt at a cost of \$350,000. The embassy at Moscow will call for \$100,000.

Airmen Reach Railway

Vance and Bladale Complete Long Trek Southward

Winnipeg, Man.—Jim Vance and Brian Bladale, Northern airmen who wintered at Baker Lake, off the west coast of Hudson Bay, have completed a 100-mile trek southward by dog-team. They reached the fringe of civilization March 26, when they entered Gilliam, which is Mile 327 on the Hudson Bay Railway, and the farthest north point at which the "Muskeg Limited" is operating along the line to Churchill.

SHORT LINE TO THE PAS WILL BE OPENED SOON

Winnipeg, Man.—Construction work on the Sturges-Hudson Bay Junction branch line of the Canadian National will be finished about May 18, and the line will be turned over to the operating department on that date. An announcement to this effect was made by A. E. Warren, western vice-president of the Canadian National.

A very considerable saving in time and distance between Southern Saskatchewan and the Hudson Bay Railway will result with the completion of this line and the opening of it for regular freight and passenger service. Between Regina, Moose Jaw and other southern points in Saskatchewan there will be a lessening of 94.9 miles over the existing route from those centres to The Pas.

Intermediate points such as Melville and Yorkton will also be brought considerably nearer to The Pas and the Hudson Bay Railway.

Until the Sturges-Hudson Bay Junction line goes into operation the route from Regina to Hudson Bay Junction is via Swan River, a distance of 429.6 miles. The distance by way of the new route which lies through Melville, Yorkton and Canora will be 335 miles.

Passenger and freight train services are now under consideration by the departments concerned and it is not expected that an announcement on train service will be made for a few weeks.

The Sturges-Hudson Bay Junction line was one of those included in the three-year branch line program which was passed by parliament in 1927. Although it is practically the last item on that program to be completed the date upon which it is to be turned over for operation is more than six months ahead of that set by the bill.

Severe Earthquake In Orient

Victoria, B.C.—Superintendent F. Napier Denison, of the Geological Observatory here reported that a severe earthquake had been recorded on the seismograph with its centre somewhere in China or Japan. The quake started to record 11.21 o'clock and continued for three hours.

France Plans Grain Reserve

Paris.—Establishment of a government reserve supply of grain to assure a proper amount for the population in times of emergency and to allow a certain government control of domestic prices has been approved by the Chamber of Deputies.

West Grows Air-minded

Western air mail service between Winnipeg and Calgary—over 800 miles in distance—has been inaugurated recently and the Canadian Pacific Express Company has renewed its contract made in 1928 to carry express packages in addition to the regular mail. This allows of a saving of more than 24 hours between the two cities. The package which pilot W. J. Buchanan is shown delivering to a Canadian Pacific Expressman, was mailed eight hours previously at Calgary and he therefore travels at the rate of more than 100 miles an hour to reach Winnipeg, its destination.

NEW APPOINTMENT

Emile J. Hebert who has been appointed passenger traffic commissioner, Canadian Pacific Railway, effective April 1. Mr. Hebert has been connected with the railway almost since its inception in the passenger department. His associations with French-Canadians all over Canada are at once close and wide.

Overseas Wireless Phone

Direct Wireless Telephone Service Between Canada and Britain Is Contemplated

Ottawa, Ont.—Confirmation of the statement of Hon. H. B. Lees-Smith, British postmaster-general, respecting the contemplated establishment of a direct wireless telephone service between Canada and Great Britain was obtained from officials of the Department of Marine. So far, however, the matter has not gone beyond the negotiation stage.

When the system is established it will operate through the Marconi beam wireless at Drummondville, Que., from where the transmission will be direct to Rugby, England. This circuit has been operating experimentally for the last year. It was employed recently in the broadcast of the King's speech at the opening of the naval disarmament conference. Officials were unable to say when the system will be inaugurated commercially.

Opened Exhibition By Radio

Marconi Spoke From Genoa, Italy, To Sydney, Australia

Genoa, Italy.—Short radio waves cutting across the Atlantic, America and the Pacific carried the voice of Marquis Guglielmo Marconi, inventor of the wireless, from his yacht Electra here, to Sydney, Australia, to open the electrical exposition there.

Marconi spoke across 11,000 miles to Director J. Flak, of the electrical association, reading a message which outlined what he intended doing later in the day—transmitting a small unit of power to Sydney in order to close a circuit there and light the electric lamps of the exposition.

Heavy Penalty For Robber

Montreal.—The maximum penalty of 14 years in the penitentiary was given Robert A. Watson, who confessed to a series of armed robberies in Montreal during the winter; when he appeared in police court here. Watson called himself the "Lone Wolf" and robbed some half dozen managers of chain stores and other premises during his career here.

Calgary Has Glider Club

Will Purchase Training Glider and Commence Flying Soon

Calgary, Alberta.—Calgary, district Canadian glider club was made, tingled as the place where the bids fair to become the first city in the Dominion with two glider clubs. Headed by W. L. Rutledge, captain, and H. H. Kenyon, vice-captain, eight directors of the Foothills Glider Club were elected by a meeting of two enthusiasts at the municipal airport. Plans are to purchase a training glider immediately and commence flying early in the coming season.

DEVELOP PUBLIC OPINION ALONG PEACEFUL LINES

Ottawa, Ont.—Contribution of moneys to Canadian universities for establishment of chairs in international relations is a field in which it might be better for the Dominion Government not to intervene, believes Dr. O. D. Skelton, under-secretary of state for foreign affairs. Dr. Skelton spoke before the House of Commons committee on industrial and international relations.

His comments referred to a resolution of Miss Agnes McPhail (Prog, South East Gray), asking that for every \$100 disbursed by the Canadian Government for war, \$1 should be spent for promotion of peace. The resolution favors setting up a chair of international relations and institution of international scholarships in each Canadian university.

Cost of establishing such chairs was set at \$3,200,000 by Dr. Skelton in answer to a question by A. W. Neill, and (Cons, Alberta).

Dr. Skelton thought that in some cases establishment of chairs of international relations would be desirable, but in most instances he believed it more useful to develop general knowledge of social science. The question of what the Dominion Government should do in the way of establishing additional scholarships found Dr. Skelton of the opinion that much has already been done by individual and organized effort, the way was clearly indicated that this system should be continued.

As far as he could see, there were three main points developed by the parliamentary debate. One was to ascertain how public opinion could be developed to deal with the big task thrust upon the people of Canada and what part the Dominion Government should play in shaping that public opinion. A second was how to train personnel in the conduct of international relations and what part the government should play in the training of that personnel.

The third envisaged the agencies the government should develop for carrying on the immediate and direct tasks of conducting the relations of foreign and inter-internal governments.

Dr. Skelton felt that the elementary and secondary schools could do much to humanize the training of young Canadians in international matters.

Another element was the press. A survey of the press of Canada, said Dr. Skelton, was not disheartening. It would compare very favorably with that of most countries, and the information furnished by the Canadian press was not only adequate but probably less biased and more objective than that published in the press of a great many other countries. The fact that in the past two years there had been established press bureaus in London, Paris and Washington indicated how much the press was contributing to the general knowledge of international matters.

Other factors in developing public opinion were the movies and radio. These were if anything "too international." International travel also furnished many opportunities for broadening the outlook of Canadian people.

Many organizations were doing valuable work. Such were the Association of Canadian Clubs, the Institute of International Relations, the Canadian Problems Society and the League of Nations Society.

Besides all these factors the Dominion Government and parliament did much through the utterances of its members. He did not approve of the Dominion Government entering into organized propaganda with a view to moulding public opinion.

One of the ways in which the government could help would be through aid to the league of nations society. The government might supply material to schools and colleges on international relations, but on the whole the task of developing public opinion was one for voluntary organized effort.

TRADE TREATY WITH AUSTRALIA TO BE RETAINED

Ottawa.—Both the sub-amendment, calling for revision of the Australian treaty, and the amendment declaring that it should be abrogated, met with defeat in the House of Commons. The sub-amendment, which was moved by Hon. H. H. Stevens (Cons, Vancouver Centre), was defeated by a vote of 103 to 51. The amendment, which came from Robert Gardiner, U.F.A. member for Acadia, was even less successful. It was lost by 141 to 16.

Party lines were followed closely in the division on the sub-amendment. All the Conservatives present, and H. B. Ashhead, Labor member for East Calgary, favored the Conservative proposal. Lined up against it were all the Liberals, Liberal-Progressives Independent members, Progressives and members of the U.F.A.

Support of the U.F.A. amendment calling for abrogation of the treaty came from members of the U.F.A. party, Progressives, and one Liberal, A. Boucher, the Conservatives, Liberal-Progressives and Independent members.

Following defeat of the sub-amendment and amendment, the government motion to go into supply was declared a success. This motion has been before the House for some days but discussion of the Australian treaty has prevented its passage.

British Companies Interested

May Invest In Oil Fields and Later Build Steel Mill

Calgary, Alberta.—Laying down of a million dollar stock and oil-well drilling and operating equipment in Calgary during the coming summer and later establishment of a steel mill in this city or at Vancouver if the market proves sufficiently attractive will be declared by the large British financial and manufacturing interests represented by R. A. Raymond. Mr. Raymond has spent some time looking over the market provided by the Turner Valley field.

While declining to give out the names of the British companies which are interested, he stated that they are in a position to handle Canadian business in practically unlimited volume. And it was possible that a merger of a number of well-known firms engaged in the iron and steel manufacturing industry may be formed with a subsidiary Canadian company to handle the business in the Dominion.

Wheat For Starving Chinese

Western Farmers Asked To Donate a Bushel of Grain For This Purpose

Winnipeg, Man.—Pleas from far off China, where millions have died of starvation and millions more face a like fate during the coming year, have reached the little settlement of Demaine, Sask., centre of a thriving agricultural district.

From business men and agriculturists of the district comes a plan to aid the people of the northern sections of China, where 5,000,000 persons have perished from hunger and privation.

The thousands of farmers of the western prairies are urged, in a resolution adopted at a meeting of Demaine folk, to donate one bushel or more of wheat each, and the railway companies of the Dominion are requested to arrange free transportation of this grain to the Orient.

Elected Party Leader

J. W. McDonald Is Chosen As Leader Of Liberal Party In Alberta

Calgary, Alberta.—J. W. McDonald, K.C., former mayor of McLeod and prominent in political life of the province, was elected leader at the convention of the provincial Liberal Association.

The election was made on the third ballot, and Mr. McDonald will ascend to the post previously held by Captain M. T. Shaw, K.C.

The race for leadership was close between Mr. McDonald and W. R. Howson, of Edmonton, and H. Montgomery, of Wetaskiwin, who were the other candidates.

May Try Atlantic Flight

Friedrichshafen, Germany.—The huge German Dornier DO-X will attempt a flight to the United States this summer providing trial flights with motors from the United States to be installed this month prove satisfactory.

Topographical Map of Humboldt

Interesting Facts in Connection With Early History of the West
Few people can resist the fascination of a modern map with its implication of travel and appeal to the imagination.

Particularly fascinating are the maps of Western Canada, where changes are swift and continuous. A case in point is the Humboldt Sheet of the Sectional Map of Canada, embracing 4,300 square miles of central Saskatchewan between townships 33 and 40, ranges 15 to 20, west of the second meridian, of which the 7th edition since 1902 is, now off the press of the Topographical Survey, Department of the Interior.

In very early days in the West, people travelled almost wholly by water. As the Humboldt area lies nearly forty miles from any water route it remained an unknown land except for occasional winter travellers until the construction in the '80's of the main line of the C.P.R. to the south, when Humboldt telegraph station became the half-way point on the stage route between Qu'Appelle and Prince Albert.

On his way north to survey a portion of the Arctic coast, in December, 1836, Thomas Simpson travelled diagonally across this area. His approximate course across the country is indicated by the line of the Canadian National Railway northwesterly. Taking observations by the way, as did most of those early explorers who had a working knowledge of surveying, Simpson appropriated the cartilage of his books and instruments, travelling himself all the way to Athabasca on foot.

Quill lakes, on the southeast corner, 1750 feet above sea level, are referred to as "Lac aux Plumes" and informs us that they derived their name from the multitude of wild fowl that moulted there every summer. The portions of these lakes falling within the mapped area cover seven townships and have been reserved for a Bird Sanctuary, together with Lenore lake, at the north centre of the sheet, while Ponass lake on the eastern boundary has been treated "Public Shooting Grounds Reserve."

Simpson described his route across the eastern half of the tract as being from one deeply curved valley to another, and traversing successive bays of the sea to which these great plains that reach to the Rocky Mountains may well be likened. "In spite of the fact that the district is well settled, some of this forest still remains and the woods, tinted in green on the map, appear much as they did 94 years ago, Christmas Day, 1836, he travelled 31 miles, passing over or near what are now the villages of St. Gregor, Muenster, Carmel, and the town of Humboldt. Northeast of Humboldt, from the summit of Mount Carmel, he and his guides obtained a view of a boundless prospect of the plains to the south with belts of woods to the west. He saw a "seemingly endless tract of open undrained varied by gentle swelling eminences, thickets and hillocks, interchanging with still further more open country varied by coteaus or bare ridges and here and there in the hollows large ponds."

This might be a terse description of the terrain as it now looks except that, where not a building or farmstead stood at that time, and now even sixty years afterwards, nowadays the expanse is dotted with the homes of settlers who have gone into the tract since 1902.

Some years after Simpson, in the midsummer of 1872, the Sandford Fleming expedition passed across the tract on their way to examine the Yellowhead Pass for the C.P.R., and to report on the intervening and extending countries. Climbing the same hill from which Simpson obtained a view in 1836, the secretary of the expedition commented rapturously on

"What did your sister say when you told her I had my 26th birthday today?"
"She said it was quite time."
Karikurem, Oslo.

W. N. U. 1531

the roses, marigolds, golden rod, line bergamot, white tansy, blue-bells, hellebells, and others in such a profusion of color that his impression was of an earthly paradise, but he says sadly, "Where hundreds of homesteads shall yet be, there is not one!" Yet the new map now shows on the area 4,370 buildings and exclusive of the towns and villages.

These were the days of great buffalo hunting expeditions from Red River, when hundreds of people travelled together in a picturesque brigade, the men riding, the women driving the Red River carts, and the children general "Chores" for the women. Captains and policemen were elected to preserve order, outposts set, laws made for the hunt and strictly enforced by fines or the destruction of the clothes and accoutrements of the offender, or by expulsion from the brigade. A hunt over this very country has been vividly described as like the pursuit of light cavalry on an innumerable host, the dark moving sea of numberless buffalo. Even a few years ago there were traces of the buffalo brigade camps where the women and children prepared the dried meats and pemmican and dressed the hides after a slaughter which did not cease until all the carts were well filled, when the little army returned home. Curiously enough many of the railways have been built along the travellers' routes of early days. These in turn followed roughly the buffalo trails which were never far from water and thus tended to seek the lowest level.

By 1879 another traveller describes meeting train and Red River carts with freight going westward heavily laden with supplies for the new settlements in the Prince Albert, Battleford and Edmonton districts, or returning empty to Winnipeg. Each day, plainsmen and cowboys from the camping grounds of others were passed, the square of sold dug by the careful freights that formed a fire-place, the ridge poles left lying on the ground, the ashes of campfires and little enclosures ten feet square where smudges had been made against the assaults of the ubiquitous mosquito. Incidentally he mentions that the telegraph line having been down for two weeks, he was unable to send a telegram from Humboldt. About this time a surveyor paid seven dollars for a telegram which took a month to reach its destination.

More impressive than caravans of buffalo hunters, and brigades of freights must have been the sight of General Middleton's column of 950 men marching in April, 1885, from Qu'Appelle to the Saskatchewan and passing at Humboldt telegraph station, some six miles southwest from the present town of Humboldt, for a rest of two days. Ahead of the column rode Boulton's Scouts, most of whom were the surveyors who before and after the battle of the battle of this country. Their way lay along the stage-coach mail route which followed roughly the Canadian Pacific Railroad Langlin-Prince Albert Branch.

The romantic past of the Humboldt territory has been replaced by the practical present whose brigades and caravans are trainloads of wheat and cattle eastward, and manufactured articles and manufactured goods westward by way of eight railway lines that net the region.

Losing One's Temper

Rage Poisons the Brain and Will Shorten Your Life

Lose your temper and you shorten your life. Flying in a rage poisons the brain, strains the heart, unstrings nerves. A bad temper and good health cannot permanently go hand in hand. In the days of one-man organizations violent tempers were more common than they are today. In the modern organization the fiery-tempered individual is out of place. Harmony oils the machinery of business; discord casts sand into the gears. Temper kills teamwork. Therefore, for the sake of your own health and for the sake of the health of your business, don't let your temper get out of control. An uncontrollable temper is as destructive as an uncontrolled engine. Forbes Magazine.

Needed the Water

Cooper had been standing in the cool water with his fingers glued firm over a leak in the water pump. "George," he cried, "you can take your hands off that leak now."
"Thank heaven," replied her husband, "Has the plumber come?"
"No," was the answer, "but the house is on fire."

Investments Abroad

Canadian investments abroad at the end of 1928 amounted to \$1,579,074,000, according to an official estimate. Of this sum \$774,000,000 was invested in the United States; \$131,915,000 in the British Isles; and \$572,163,000 in other countries.

W. H. DEVENISH

General Superintendent of the Canadian National Railway, Edmonton, who has been appointed General Superintendent of the Manitoba District, with headquarters in Winnipeg.

Requires Some Solving

Question Of Supply and Demand Is First Class Problem

At the present time it is said that there is too much wheat in the world, too much wool in the world, too much coffee in the world, too much rubber in the world. There is so much of each that the world price is affected, which means that the people who produce coffee, rubber, wool and wheat are not getting a price that is considered profitable.

What is to be done about it? The articles referred to are regarded as necessities in the modern world and yet the demand for them is not sufficient to keep the price at a level that is required to meet costs of production.

At one time in the world's history a gentleman named Mathias predicted that if the number of the people in the world were not kept to a certain level there would not be enough food for all, and the human race would face starvation. He urged the limitation of population. Instead of that coming to pass we have a world today in which limitation of production is seriously discussed because there are not enough people to use the commodities that are being produced. It is true that the race might use more products if it had the means to buy, as illustrated by the fact that millions are said to be starving in China, although the world market is flooded with wheat. They cannot eat because they cannot buy.

There appears to be a first class problem here for everyone with a brain to think.

Would more people in the world produce better markets or would they merely depress the markets by producing more food?—Regina Daily Post.

Producer (interrupting singer at voice trial)—"Does that end the first verse, miss?"
Singer—"Well, I've got to where it says refrain."

Producer—"Good. Please do as it says."

Caller—I'm afraid I'm going to tax your memory—
Mr. Bangs—Good heavens, has it come to that now?

Broadcast Canada in U.S.

For the first time since its formation, the National Broadcasting Company of the United States has accepted a regular radio programme made outside the United States for distribution in that country. This distinction has been conferred on the Canadian Pacific weekly hour of "cheerful and good" music and announcement to that effect has recently been made by E. W. Beatty, chairman and president of the railway. Agreement has been reached with the National Broadcasting Company under which the Canadian Pacific will supply WJZ and associated stations with a series of Canadian programmes made in Canada with Canadian talent. The network will include WJZ, WBZ, and KDKA with

Improve Your Turkey Stock

Turkey Approval and Banding Campaign in Saskatchewan

Recently compiled records of the 1928-29 turkey approval and banding campaign, conducted by the Poultry Division of the Saskatchewan Live Stock Branch, reveal that 2,172 turkeys were approved and banded. Despite the fact that a number of the birds were down in weight because of the poor growing season last summer, the results show a very logical improvement with respect to the number of birds graded as "A" or "B" with a corresponding decrease in the number of grade "C" birds.

Many breeders have disposed of all the approved turkeys which they had for sale. A few breeders are offering at greatly reduced prices, some good turkey which are capable of improving the type, conformation and plumage markings of many flocks throughout the province.

For information as to the location of these turkeys, together with prices, those interested may communicate with W. H. McLellan, secretary-treasurer, Saskatchewan Poultry Breeders' Association, Poultry Division of the Provincial Live Stock Branch, Department of Agriculture, Regina.

Have Made Good Progress

Reindeer Herd Will Remain in Northern Alaska During Summer

The drive of 3,000 reindeer from the west coast of Alaska, eastward, to the Mackenzie River, in the North-West Territories of Canada, is progressing favorably, and in March the herd was expected to reach the basin of the Colville River, in northern Alaska, where it will remain during the coming summer, resuming the movement in October. A word of the progress of the reindeer purchased by the Dominion Government, was brought by Mr. E. Forsyth, of the North-West Territories and Yukon branch of the Department of the Interior, who recently returned from Alaska. While in the north, Mr. Forsyth selected the animals to be included in the movement, and saw the drive well under way before he returned to Ottawa.

Early this spring, Mr. R. T. Forsyth, of the North-West Territories and Yukon branch, will go north by aeroplane, to complete arrangements for the reception of the herd in the beginning of 1931. Materials for the erection of the corrals, huts, and other structures, have already been shipped north.

How He Figured It

They were talking rather confidentially in the club.

"But, surely," said Wilson, "you and your wife are as one?"
"Of course, I know we should be," said Watson, the henpecked husband, "but we are not. As a matter of fact, we are ten?"

"Ten?" replied Wilson. "How do you make that out?"

"Well," said the other, dropping his voice a little, "she's the one and I'm the number."

Willie—"I must say I enjoyed the party, Mrs. Smith."

Hostess (delighted)—"Honest, you little darling!"

Willie—"Yes, even though I hated it. Mother would spank me if I didn't."

Strong Minded Children

Choose Careers Early

And Usually Stick To Their Decision Says Educationist

"When I grow up, I'm going to be a policeman" or "I'm going to be a nurse" are words which are heard so often that one is tempted to say, "So maintain the boy next door. Or average little boys, for that matter."

"An' when I grow up, I think I'll be a nurse, so's I can help give the little boys a bath," returns the little girl next door.

Down in New York, lives an educationist, one Professor Harry Dexter Kilson, of Teachers' College, Columbia University, who maintains that such a speech, from a strong-minded child, indicates that in all probability the child will abide by his decision when grown up.

Dr. Kilson, recently completed a vocational study in New York which showed that 14 per cent of policemen and 12 per cent of nurses decided upon their careers before the age of 12. His study revealed that although most boys and girls have no vocational interest, the few who do make early selections, stick fairly closely to them when they reach adulthood.

He should not expect most immature persons to have an interest in any particular vocation," Dr. Kilson maintains.

Other results showed that nurses are far more interested in their profession than teachers. This was discovered by submitting to nurses a question used several years ago to test the teachers. They were asked what activity they would devote themselves to if they had a million dollars and did not have to work. The answers to this question, correlated with a mathematical scale of interest, showed that 33 per cent of nurses had a maximum interest in their work as against 19 per cent of teachers.

It was found that the ages at which interest cropped out in policemen and nurses with regard to their eventual life's work varied from three to 34 years, with the largest number grouped around the age at which they were eligible to enter the field.

The High Art Of Giving

Red Cross Offering Carries An Inspiration and Message Of Faith

In a busy Red Cross Headquarters in the city of Edmonton, there comes to light from time to time a story which proves that the spirit which inspired the widow woman to place her all on the altar of God's work is still capable of moving the world today. Many touching tales of sacrifice come to hand of people who are poor, but not too poor to share with others the few blessings which life has bestowed upon them.

The dollars and cents given with this spirit of Christ-like service have a hallowed meaning, and frequently inspire others to a like sacrifice. "Not what we give, but what we share, for the gift without the giver is bare, who gives himself with his gift feeds three, himself, his hungry neighbor, and Me," says the Great Teacher.

Thus the small sum of one dollar and seventy-five cents which came from a countrywoman in Northern Alberta, has a spiritual value to Red Cross, for the giver says she has sent a tenth of her earnings. To the Red Cross workers who look out on life from its sorrowing and suffering viewpoint, there comes from this simple offering an inspiration and a message of faith to carry on in spite of all difficulties.

Parrots Not Allowed

A drastic order that all parrots be discharged from the United States navy has been handed down by Acting Secretary Jahnke. The birds have acquired a reputation as carriers of pitta-cous or parrot fever. Secretary Jahnke's order was designed to prevent the spread of the disease.

New Post Offices

Sixteen new post offices were built in Canada last year, the largest being at Saskatoon, and costing \$725,700. The buildings were distributed by provinces as follows: Nova Scotia, 1; New Brunswick, 1; Quebec, 2; Ontario, 5; Manitoba, 2; Saskatchewan, 2; Alberta and British Columbia each 1.

Mike: "Did we ever spake before a large audience, Pat?"
Pat: "Of old wance."
Mike: "An' what did ye say?"
Pat: "Not guilty."

Dentist (to youngster who has broken a tooth): "How did you do it?"
Motormen's Ban: "It happened when I was changing gears on a bulleye."

Canada Week In Bristol

People of Bristol: Tales Becoming More Familiar With Canadian Products

Mr. Douglas A. Cole, Canadian Government Trade Commissioner stationed at Bristol, has evidently left no stone unturned to make the special "Week" planned to give the housewives of Bristol an opportunity of becoming more familiar with Canadian food products, a success. This special "Week" terminated on Saturday last, and, according to the "Evening World," it was successfully inaugurated by the Lord Mayor of Bristol, who, together with other civic officials, members of the Press and the Bristol Provision Trades Association, were guests of the Canadian Government at luncheon at the Grand Hotel.

Early in the week, Hon. Mr. Buckle, Minister of Agriculture for Saskatchewan, wired as follows to Mr. Cole:

"In Saskatchewan we are greatly interested in your efforts to increase the sale of Canadian farm products in the West of England, and express our appreciation. In the forward development of our agricultural policy recognition is given to the fact that high class products as well as volume are demanded in the markets of the British Isles, and it is our ambition to meet such requirements. Reciprocal trade within the Empire is a most worthy objective and we are most anxious that Canada Week in Bristol will be highly successful for all concerned."

To which Mr. Cole replied: "Many thanks for cabled good wishes. Over 400 Bristol stores will be stocking, displaying and selling Canadian food products during Canada Week. Every co-operation received from Lord Mayor of Bristol, wholesale and retail trade associations and other bodies."

The Bristol Times and Mirror has the following to say: "It seems that Canadians, with two or three hundred years' experience of bottling food, have found tens of thousands of people in this country willing to buy their goods if they knew what names to say at the counter, and the shop is to be run with a view to familiarizing people with the actual brand names. It is said the law is so strict in Canada that if packers are accused of passing government inspection there, they have no need of worrying about the pure food laws of any of the other countries in the world to which they send. The organizers hope that Bristol will be the distributing centre for the West of England, while supplies in the city are being increased to meet the demand anticipated."

Auto Horns Banished

Finland and Norway Decide It Is Unnecessary Noise

Finland has made a start toward the suppression of city noises by forbidding the use of motor horns in the city of Asbo which has demonstrated that the horn is no more necessary on the automobile than it was on a fiasco, a one-horse bus or a hay wagon. News of the demonstration reached Norway, and in consequence the Royal Automobile Association of Oslo, has proposed that in every city of that kingdom the use of the horn shall be done away with, and the attention it involved redirected to skillful driving.

Manitoba Indians Will Exhibit

Indians of three Indian Reserves in Manitoba will have exhibits of grain at the 1932 Grain Show, in Regina, according to P. G. Lazenby, Indian agent at Birtle, Manitoba, who received a copy of the prize list for the 1932 World's Grain Exhibition and Conference, asking the executive for additional copies. "It is my intention to have some exhibits of grain from at least three of the Indian reserves of this agency," he wrote.

Sir Wilfred Grenfell has appealed for gifts of old silk stockings to be used by women of Labrador in making rugs.

"What are you doing?"
"Playing at 'Alpine Clubs' and Jack is the mist!"—Pages Gates, Yverdon.

Sour Stomach

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is all, alkali, effective, yet harmless. It has been the standard antacid for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain de-

parts. You are happy again in five minutes. Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

CHAPTER VII.—Continued

Jim replied, as he put a generous slice of shortcake on Grandma's plate: "You're right. The committee thought the fireworks would bring a crowd to the supper, and took up a collection for the cause. They got two dollars out of me, and I don't intend to miss the show. I tell you what, Grandma! you needn't miss it, either. I'll take you down in the car soon as it gets dark."

"My soul!" breathed Grandma. "I haven't been out in the evening since I don't know when. I do know what Charman would say, or the doctor either, but," recklessly, "I'm going to do it! You finish up that shortcake, Jim. It's no good left over and 'twould be a shame to waste it. Charman made it after Emmy Bascomb's recipe, and it's worth feeling a little sick next day over. Four me another cup of tea, son. I must be fortified if I'm going gallivanting all the evening. I haven't got any green hat," she added with a twinkle, "but I'll wear my Sunday bonnet and put Great-grandmother. Davis's gray crepe shawl over my coat, so you won't feel ashamed of your company. That shawl came clear from China, and a summer boarder who stopped in one day for a skin of extraordinary silk, offered me three hundred dollars for it when she saw it hanging over my chair."

Jim whistled expressively as he arose to clear the table.

"I'd like to see the shawl! I'd refuse three hundred for it."

"So would I," agreed Grandma, "but Charman was mad at the woman after offering it. She's got the Davis pride. You can't see the dishes in the sink, Jimmy, and I'll go get ready if you'll help me into the north room. There's that dog again with another bone! I'd like to see where he's planning to put it, but there isn't time. It looks as if Gypsy was something of a miser; but as

Before Her Baby Came

"I have used several bottles of Lydia E. Pinkham's Vegetable Compound and find it helps me wonderfully, especially before childbirth. I have five lovely children. After my last baby came I had a miserable pain in my right side so I bought another bottle of the Compound and feel fine now. I work outside during the fruit season in addition to my housework."—Mrs. Charles Slingerland, R.R. #4, St. Catharines, Ontario.

Lydia E. Pinkham's Vegetable Compound

W. N. U. 1831

his third, was taken without leaving a friend in Wickford because of her sharp tongue, he had engraved for her, "A good name is better than precious ointment." I declare, Jim, I've been curious to know what he'd say for Sarah. They fought like cats and dogs."

"It'll ally that curiosity in two minutes," promised Jim, as he alighted and crossed the patch of grass on the Purple path. He was shaking his head soberly when he returned and said: "It looks to me, Grandma, as if the deacon had run out of Scripture verses and taken to the poets. He says of his last departed, 'A sweetest woman never drew breath.' Can you beat that?"

"No," Grandma admitted gravely. "I can't, and I won't try. Seems sort of like tempting Providence, uttering untruths like that, especially on a tombstone. While I've been sitting here, Jim, it came over me what he might say about Luella Moore, if she was taken first. I had commanded the widow woman there, 'You're right.' What you're grinning about, sonny? It would be the truth, which is more'n the others are."

"That's right," said Jim, as he resumed the place beside her. "You're right," she said regretfully, "but I never could bear Ed Purdie. He was a mean boy, always putting makes and toads down the girls' backs; and once he hung the Willie Kingbird down the schoolhouse well by the heels, and the child was never the same again. My! isn't that bad of pansies handsome? I'm it time for the fireworks to begin?"

"It's time we were finding a place to park; but we mustn't get so near that the sparks will fall on that three-hundred-dollar shawl! You warm enough, Grandma? I'll let you take a cold, Charman will give me fits."

"She's liable to have fits herself if she sees me out this time of night," chuckled the old lady. "Let's stop near the church, Jim, so I'll see her face when she comes out and finds me. Here we are at the common, and Ezra Bascomb is bringing out a box—fireworks most likely. That's right," as Jim stopped at the head of the common, "there is a splendid place to see. And there's Charman, and Doctor Carter along with her. Hain't he got five straight legs, Jimmy? There! he sees us. They're coming this way!"

CHAPTER VIII.

If Jim Bennett had been purely altruistic when he took Grandma Davis to see the fireworks that night, he was amply repaid when, the old lady safe home again, Charman followed him to his car and detained him with an impulsive hand on his shoulder.

"It was dear of you, Jim, to give Grandma such a good time," she began earnestly. "I don't know how to thank you."

He faced her, and at something in his eyes she dropped the friendly hand that rested on his new, well-fitting coat.

"I don't need any thanks," he said, honestly enough. "Your grandmother's more fun than any one I know—present company excepted. And the shortcake was bully."

"What shortcake? I didn't see you at the church."

(To Be Continued.)

Doctor—Mrs. Soanough, we shall have to get a nurse for your husband and you will have to watch him very carefully.

Mrs. Soanough—You're right, doctor. I know him pretty well.

Pains Around Heart

Weak Spells Would Fall Over

Mrs. James Vandaline, Fibroch, Man, writes:—"I had pains around my heart, and suffered with weak, smothering spells. Sometimes I would fall over and be picked up and put to bed. I used several boxes of

and it is now over three years since I have had a spell. I hope anyone who is in the same case as I was will give E. & N. Pills a fair trial."

Price, 50c. a box at all druggists. Send 10c. in stamps or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Sniffling CATARRH Relieved in 10 Minutes

Relief is instant—suffering stops at once—germs are destroyed—every sniffling catarrh is cured. Think it over seriously. Here is a remedy that clears the head, relieves hoarseness, coughing and bad breath. Irritating phlegm is cleared out, inflamed mucous membranes are healed, throat and voice are strengthened.

Catarrhazone Inhaler

Catarrhazone is pleasant and certain. You breathe Catarrhazone there is no danger of taking. Large \$1.00 size is guaranteed; smaller size 50c. and trial size 25c. at all dealers everywhere.

A Fitting Tribute

Dr. Robertson Was a Man Great in Ideals and Great in Capacity For Service

A book, rather than an article so necessarily limited as a newspaper editorial, would be more in keeping in the matter of tribute to his career with the life and works of Dr. James W. Robertson, whom Canada has just claimed at the age of 73 years. Here assuredly was a great man, a man great in ideals and great in capacity for service.

Dr. Robertson will be gratefully remembered by Canada and her people for a host of outstanding achievements, and which had their beginning only a few years after he arrived in the Dominion from his native Ayrshire at the age of 18. As an interviewer has said of him, he was general consulting counsel for all Canada on matters of organization and social progress. His service to Canada began when he engaged with the operation of a Western Ontario factory while still in his teens, at a wage of \$13 a month. A few years later he was professor of dairying at the provincial agricultural college at Guelph. After that he was Dairy Commissioner of Canada, and attached to the Dominion Experimental Farm, at Ottawa. Then came a period as principal of Macdonald College, at St. Anne de Bellevue, Quebec, which, with Sir William Macdonald, he helped to found. Somewhere about this time, too, he conducted a national campaign in the interests of better seed for grain crops. Then he became chairman of the Canadian Conservation Commission and later chairman of the Royal Commission on Technical Education, a body whose activities paved the way for Canada's technical school system of today. Many other useful activities were also his in the course of his career.

He founded the pictures of the Boy Scouts, had much to do with making the Canadian Red Cross the vigorous effective organization it now is, and for 11 years, and up to the time of his death, he was chief commissioner of the Boy Scout movement in Canada.

Dr. J. W. Robertson was a genius, with that industry and passion that makes genius doubly effective, and with these qualities was a public-spiritedness that made him a servant and benefactor extraordinary of his adopted country and his time.—Regina Leader.

Picture Theatre On Wheels

Tree-Planting Car Starts Annual Trip Over Prairies

The well-known tree planting car, used by the Canadian Forestry Association, is about to start its twelfth year prairie campaigning. The car is fitted up like a modern motion picture theatre, including some talkie features and graphic motion pictures of prairie planting, colored slides of homes showing the transformation of bleak dwelling places to homes beautiful and attractive by trees, presents an appeal that is immediately taken advantage of by the prairie dwellers. In addition, other motion pictures show the birds that come with the trees and the wild life that is attracted with the protection that trees afford. Other features are graphic motion pictures of some parts of Canada, and always the comedy to enliven the presentation for young and old alike.

B.C. Herring Industry The dry-salt herring industry, of British Columbia, with its one market, the Orient, continues to expand. In 1918 the year's catch was 172,610 cwt., while in 1925 it had grown to 1,583,174 cwt. Figures for the season ending February 28, 1926, are not yet available.

Since Lindbergh's Trans-Atlantic flight \$300,000,000 has been spent on airports in the U.S.

Minnard's has Wonderful Antiseptic Power.

Favors Greenland For Aerial Route

Would Make Atlantic Flying Safer Says Rumanian Meteorologist

An aerial route between North America and Europe must go by way of Greenland to embody a proper degree of safety in the opinion of Dr. Constantine Drumbrave, Rumanian meteorologist, who has just completed two years in the north investigating aviation possibilities.

Dr. Drumbrave said he favored a plan for the establishment of landing fields and meteorological stations every 500 miles between Ottawa and Iceland. The first landing field and station he proposed to establish at Hudson Bay; the second at Hudson Strait; others on the west coast of Greenland, at Iceland, and possibly at the Faros Islands. From the latter islands, he believes, "planes would have little difficulty making straight-line flights to the British Isles and then to the European mainland."

Dr. Drumbrave expects to return to the Arctic again this year for further observations. He estimates \$1,000,000 would be required to establish the route and officials of the National Defence Department let it be known they considered the project feasible.

BABY'S OWN TABLETS

A HELP TO MOTHERS

There is no other medicine so great a help to young mothers as Baby's Own Tablets. These Tablets are a mild but thorough laxative which regulate the bowels; sweeten the stomach; correct constipation and indigestion; break up colds and simple fevers and make the cutting of teeth painless.

Mother who keep a box of the Tablets in the house always feel safe from the sudden attack of illness that seizes their little ones. If Baby's Own Tablets are given on the first sign of illness the baby will soon be right again. Concerning the Tablets, Mrs. B. G. Carver, Lyndale, P.E.I. writes:—"I always keep Baby's Own Tablets in the house and find them a wonderful help in keeping my baby well."

Baby's Own Tablets are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Sitka Spruce Used In Planes

Sitka spruce on the Pacific Coast of Canada with its light weight combined with its strength, is used universally in aeroplane manufacture.

Holloway's Corn Remover takes the corn out by the roots. Try it and prove it.

"Is it true that a clock can go 14 days without winding?"

"Yes."

"Then how long will it go if it is wound?"

Minnard's is Best for Grippe.

Remains of an old Roman wharf, where no doubt the emperor's pleasure galleys were once moored, have been found at Lake Nemi.

From 11,000 brains weighed, Topinard finds an average weight of 1,261 grams for men and 1,200 for women.

Nurse Gains 7 lbs. In 2 Weeks With Yeast and Iron

"I am a nurse at the hospital," writes Miss Martha Burns, "and I want to let you know that I am glad to recommend your Ironed Yeast."

"I gave me a good appetite. I got strong and gained 7 pounds in 2 weeks. I could write all day about how much good Ironed Yeast did me. You would be surprised at the strength I gained in 3 or 4 days."

People everywhere are amazed at the wonderful benefits of Ironed Yeast when they started. But after taking it regularly for only 3 or 4 weeks they gained 5 to 15 pounds. Ugly hollows left out. Skinny limbs become gracefully rounded. Bleached skin gets clear and beautiful.

Only when Yeast is Ironed is it more effective. Iron is not enough to bring out the weight-building; and strengthening values of Yeast. Pleasant tablets in a handy bottle. Never cause gas or bloating. Safe—no harmful drugs.

Go to any drugstore today and get a full size treatment of Ironed Yeast. If after this generous trial you are not delighted, your money back instantly from manufacturer.

Little Helps For This Week

"These are they which came out of great tribulation, and have washed their robes, and made them white in the blood of the Lamb."—Revelations vii. 14.

Constant sunshine, however welcome, never would ripen fruit or flowers; Giant oaks owe half their greatness To the scathing tempest's power.

Human strength and human greatness Sprung not from life's sunny side; Heroes must be more than drift-wood Floating on a waveless tide.

All the difference there is between what looks like a worthless stone and a gem is in the cutting and the grinding. All the difference between bullion and coin stamped with the king's face is in the smelting and the minting. All the difference between a wilderness and a garden is wrought by weeding and pruning. All the difference between a block of marble and a statue is produced by the mallet and the chisel. God has for us up-ponder, by and by, I know not what noble ministries and what exalted places of beauty and of power. Since He knows what niche we are to fill, trust Him to shape us to it.—M. J. Savage.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Extirminator.

British flying schools have more applicants for instructions than they can care for.

The famous palace of the Alhambra, in Spain, was originally a fortress capable of holding 40,000 men.

No beaver dam is ever finished, or ever without need of repair.

Needless Pain!

Nowadays, people take Aspirin for many little aches and pains, and as often as they encounter any pain.

Why not? It is a proven antidote for pain. It works!

And Aspirin tablets are absolutely harmless. You have the medical profession's word for that; they do not depress the heart.

So, don't let a cold "run its course." Don't wait for a head-ache to "wear off." Or regard neuritis, neuralgia, or even rheumatism as something you must endure. Only a physician can cope with the cause of each pain, but you can always turn to an Aspirin tablet for relief.

Aspirin is always available, and it never fails to help. Familiarize yourself with its many uses, and avoid a lot of needless suffering.

"The Deacon Slips"

The play "Deacon Slips" was
brought to town on Thursday
evening last, under the auspices
of The O'Neil Players, the Wom-
en's Institute and the United
Church, and once again proved
what local talent can do when
called upon. The U. F. A. hall
was nicely filled with a very ap-
preciative audience.

Between acts, Miss Vera Meth-
erall proved herself a master of
pianoforte in the rendering of "The
Burning of Rome" and as an en-
core "The Rosary." More than one
person who were familiar with that
piece said that they could almost
hear the piano repeat the words.
Mr. Waldo sang a couple of
songs "When You Come Home" and
"The Tumble Down Shrek of
Athens" for which the audience
showed their appreciation by the
generous applause given.

Between the second and third
act "Shorty" Jones gave us more
of his abilities as a step dancer,
which was much appreciated by
the audience. Miss Askow also
gave a dance but of an entirely
different nature; she gave a toe
dance in a very grace and becom-
ing manner. The audience were
not slow in showing how they ap-
preciated the ability of this young
lady. We hope to see more of
Miss Askow in the near future.

It is not necessary to write
much about the play itself as the
write up of two weeks ago covered
the play entirely, only that a good
many who went out to East Com-
munity hall were on hand to see
it again on Thursday night.

The board and members of the
Crossfield and District United
Church wish to convey their sin-
cere thanks to the O'Neil players
for their donation to church
expenses from the above play.

The receipts and expenditures
in connection with the above were
as follows:
Receipts were \$70.60. Expenses
\$17.35. Leaving a balance of
\$53.25, which was divided as fol-
lows:

O'Neil Players	\$19.15
Women's Institute	17.05
United Church	17.05

Donnie McFadyen, son of Mr.
and Mrs. Archie McFadyen, one
time Calgary junior Canadian
star, now playing for Marquette
University of Milwaukee, is sel-
ected for centre on the first Al-
American hockey team. Donnie
recently received an offer of
\$15 000 to play for two years with
the Chicago Black Hawks.

Local and General

Mrs. E. Devins is spending the
week in Okotoks.

R. Arnott went to Calgary on
Wednesday to attend the Spring
Stock Show and Sale.

Mr. and Mrs. M. English have
moved into the Wigle house, in
the north part of town.

Mr. Geo. McLeod and Mr. Cald-
well were business visitors in Cal-
gary on Tuesday.

Miss Alberta Farr, of Airdrie,
has returned home after spending
the past three and a half months in
Toronto and other Eastern cities.

The Ladies Aid of the Union
Church held a well attend meet-
ing at the home of Mrs. Belshaw
on Wednesday afternoon.

Arnold High spent the week
out at Big Prairie. We notice
that he brought in a few choice
flag poles.

Remember the Ladies Aid tea
and sale of home cooking in Laut's
store on Saturday, April 5th. from
3 to 6 p.m.

The Women's Guild will hold a
tea and apron sale in the U. F. A.
hall on Easter Saturday, April 19th.
All donations gratefully received.

Howard Gazeley has accepted a
position with the British American
Oil Co. as pump repair man and
left on Monday for Calgary to
commence work.

Signs of spring were in evidence
this week at the local school, when
Velma Pogue produced a live but-
terfly and Lexy Miller a crocus
plant in full bloom.

The members of Justice Rebekah
Lodge, No. 62, will hold a tea and
sale of home cooking, Saturday,
April 12th from 3 to 6 o'clock in
the Oddfellows' Hall, over Hal-
iday's store. All welcome.

R. T. Amery of Walla Walla,
Wash., arrived here on Saturday.
Mr. Amery made the trip by auto,
and intends to remain here about
six weeks, looking after his busi-
ness interests in the district.

R. H. Gibson of Old, delivered
a truck load of Reward seed wheat
to his brother W. K. Gibson on
Tuesday. Mr. Gibson has sold
considerable of this famous wheat
in the Crossfield district this sea-
son.

W. Laut, T. Tredaway, A. Gordon
and W. Miller attended the
Liberal convention held in Calgary
on Thursday last. J. C. McDon-
ald, K.C., mayor of Macleod, was
chosen as Provincial leader to suc-
ceed Captain Shaw, who resigned.

At the recent Kamloops Bull
Sale and Fat Stock Show, Frank
Collicutt's Herefords were very
much in evidence, winning the
championship with his Gay Lad
815, which was described as an
exceptional fine specimen of the
Hereford breed. \$875.00, the top
price of the whole sale was paid
for one of Mr. Collicutt's animals.

Mr. Miller of the local bank re-
ceived a letter last week from Mr.
Winning, who it will be remem-
bered left here a month ago for
Scotland, to visit his parents and
to attend their golden wedding
anniversary. The letter contained
the sad news of Mrs. Winning's
death, which took place just a few
hours previous to his arrival. Mr.
Winning had been delayed enroute
or he would of been at his moth-
ers bedside at the end. The Chron-
icle join in extending to Mr. Win-
ning its sincere sympathy in their
sad bereavement.

Does It Pay to Advertise?

In our last issue we published the fact
that Mr. Spivey had a freak chicken and
the next day the Spivey residence was
besieged with interested visitors. They
started to put in an appearance before
the Spivey's were aroused from their
slumbers; the result was that the chick
had its neck jerked and since then the
editors sleep has been disturbed with
visits from the ghost of that chicken,
blaming him for heralding its appear-
ance in this world. Does it pay to ad-
vertise? That chicken said "No."

Wm. Stralo ran an ad. in this paper,
offering for sale a brooder and a brooder
house. In ten hours after the paper was
out Mr. Stralo had sold both articles.

L. B. Thomas disposed of a horse and
buggy and a cart after one insertion of
a small ad in this paper.

O'Neil News

The Friday night card party and dance
took two more young bachelors, to make
it a thrilling success.—Albert Buterman
and George Graves being the hosts.
These boys believe in style and swung
a real lively novelty dance, balloons,
crepe hats and streamers of all colors
lent an extra touch of charm as well as
meritment to the evening's entertain-
ment. Two or three extra carloads from
Calgary helped to swell the already
crowded school house.

Prizes for the card party were award-
ed to: Mrs. Garnet O'Neil, ladies first;
Miss Jean O'Neil, consolation; Mr.
Garret Buterman, gent's first; Master
Jack Wigle, gent's consolation.

Mr. and Mrs. Ed. Fox, Miss Ina Fraser,
and Mrs. T. W. Wilson motored to
Calgary on Saturday.

Garnet O'Neil and Earl Adams are
spending the week in Calgary as they
are exhibiting some very fine bulls at
the stock show there.

The "O'Neil Amateur Players" wish
to congratulate the town on the good
turn-out to their play, held in the U. F.
A. hall, and also to thank the children
for remaining so quiet, making it a
real pleasure for the players to perform.

Tan-y-Bryn News

A most enjoyable evening was spent
at Tan-y-Bryn schoolhouse on Friday
night, when the 500 Club, who have
their weekly card party throughout the
winter, brought the season's activities
to a close with a supper and dance.

The longside were responsible for
the supper which was convened by Mrs.
Wm. MacDrimmon and Mrs. McCordell.
It was served in the teachers room which
was nicely decorated for the occasion.
They must have used part of the auto
"cota grace"—plenty of meat—for it was
evident that there was a bounteous
spread of dainties. The winning side of
the wintery play were responsible for the
dance and midnight lunch which was
very enjoyable. The music was provid-
ed by the Ferguson Orchestra which was
most excellent; those playing in it were:
Mac, Ferguson, Chas. Ferguson and Mrs.
W. H. McCool.

During the evening a pig, donated by
Wm. Hunter was raffled off and won by
Lorne Wilson. The sum of \$10.50 was
made which is to be used to assist in new
equipment for the school play ground.
The grand prizes for the wintery ag-
riculture score were won by: Ladies' 1st,
Mrs. H. Robinson; gent's 1st, Charles
Ferguson; Consolations, Miss Womans,
and J. Hogan.

A farewell party in the Tan-y-Bryn
school house on Monday night to Mr. E.
Richard. The evening was spent in
cards and games. Mr. Richards was pre-
sented with a coffee percolator and a
sum of money by Mr. H. Robertson in
the name of the community.

Mr. Richards has sold his farm and
went to Calgary on Tuesday. He is to
reside at Bowness. He came to this dis-
trict in 1901 from Red Deer. Many will
miss their cheery faces, but wish them
every success in their new venture.

W. Spivey was a visitor to Cal-
gary on Monday last and pur-
chased three incubators; one six
hundred and two of one thousand
egg capacity. Mr. Spivey found it
impossible to fill all the orders
he has received for baby chicks
without increasing his incubator
capacity.

FORM "O"

The Domestic Animals Act

(Municipalities)

SALE AND REDEMPTION OF
IMPOUNDED ANIMALS (Sec. 45)
